THIC Meeting at the Embassy Suites Hotel, Denver CO

June 27, 2000

Presented by

Jim Craze, Offering Technology Solutions

Systems Engineering and Security, Inc.

- Archives started in October 1995
- Archive size - 25 MB
- Archive Format - Adobe Portable Document Format (PDF) files
- Archive capacity exceeded with the April 1997 THIC meeting in Tysons Corner VA
- UUNet, now a part of MCI WorldCom, was our archive host from October 1995 to December 1998
- The archives were moved to Hurricane Electric Internet Services in early 1999 when UUNet terminated anonymous ftp service. We have contracted for 100 MB of storage space with HENet
- With the move to HENet, our web address was simplified:
<http://www.thic.org/>

Current size: 96 MB

(as of June 18, 2000)

Please remember to log in from a host whose IP address can be reverse-mapped by DNS to a canonical name. If you are logging in from behind a firewall, this is not always possible; unpublished IP addresses may be in use behind firewalls. Contact your IT staff for a proxy server, or a published IP address.

Backup archive is: <ftp.ses-inc.com>

As we reach our storage limit on our primary server, the older files are moved to <ftp.ses-inc.com> and the links on the home page are modified to point to the ftp site for the moved files.

THIC needs volunteers!

And we need them urgently!

Most of the organizational work today is done by **The Group of Four:**

chairman

vice-chairman

treasurer

webmaster

For the organization to survive, volunteers are absolutely essential

- Please bring a soft copy of your presentation to the meeting with you on a floppy, LS120, CD-R or zip disk
- Format: PC or Mac
- Application: Microsoft Word, or Powerpoint preferred; ideally, an Adobe Portable Document (PDF) file
- files can be e-mailed to me as MIME attachments
- Instructions to Authors can be found at the URL <http://www.thic.org/>

Instructions to Authors/Presenters (contd)

- **FTP uploads can be arranged if the files are very large**
- **Prompt submission of presentations makes for quick distribution when interest is still high**
- **Please adhere to guidelines for title page, ensuring that your name, complete mailing address, phone and fax numbers, e-mail address, place and date of presentation appear on it**

Please send suggestions for meeting themes, lecture topics, names of lecturers, etc, by e-mail to:

thic@thic.org

Or contact

chairman@thic.org

vicechair@thic.org

secretary@thic.org

webmaster@thic.org

ANSI/AIIM Standards Group

Your participation invited in the

- C21.1 FSMS Sub-committee: Conformance Tests for ANSI/AIIM MS66
- C21.2 Optical Tape Study Group
- C21.3 MEMRI

Please send e-mail to: fernando.podio@nist.gov

Tour of the STK Gold Lab

The StorageTek "Gold Lab" is a 20,000 square foot facility containing approximately 400 pieces of equipment. Virtually every type of StorageTek product is represented, as are server platforms from HP, Sun, IBM, Compaq, Dell, and others. Work conducted at Gold Lab includes proof-of-concept, pre-sales and post-sales support, SAN architecture development, interoperability testing and customer demonstration of proposed solutions. The Lab is a shared resource utilized by StorageTek, StorageTek external partners, VADs, VARs and customers.

Maps will be available at the registration desk; please try to carpool
