Systems Engineering and Security, Inc.

# History of THIC Web service

- December 1995: Contracted with ftp.uu.net for 25 MB of their unadvertised anonymous ftp service.
- November 1998: Following acquisition of UUNet by MCI Worldcom, this service was discontinued, and we were forced to explore alternatives.
- December 1998: Dr Mahesh Mittal, President of Systems Engineering and Security Inc, generously agreed to host our anonymous ftp service on ftp.ses-inc.com.
- October 1999: Contracted with Hurricane Electric Internet Services of San Jose CA for 100 MB of storage and 10 GB/month of data transfer. Backup ftp service will continue to be available from ftp.ses-inc.com.

## THIC FTP Server

- All files moved to ftp.ses-inc.com/pub/thic on December 15, 1998; this will continue to provide us backup ftp service.
- Some early files may still be available from ftp.uu.net, but this is uncertain
- *Always look for files on the Home Page*; the links will point to a valid site
- Current primary server is www.thic.org.

## Primary THIC Archives

- Primary archives now hosted by Hurricane Electric in San Jose CA; HE is collocated with MAE-West and has multiple OC-3 fiber connections to the backbone. See [traceroute](#) output on next two slides.

- Our home page URL now is:

<http://www.thic.org/>

- If you use the old URL

<http://www.thic.org/thic>

you will be instructed to use the new URL.
